OUR COVER IMAGE

Víctor J. Acosta Chaves is a Costa Rican tropical biologist specializing in the ecology, taxonomy, and conservation of amphibians, reptiles, and birds. After receiving a degree in biology from the Universidad Nacional de Costa Rica (UNA), he recently concluded his post-graduate studies (Master in Science) in herpetology at the Universidad de Costa Rica (UCR). Víctor currently is involved with research on the herpetofauna and birds of the country, such as investigating the ecology of critically endangered species and evaluating the impact of human structures on vertebrates. In recent years, he has been working as a scientific advisor and specialized guide for scientists, students, and professional photographers throughout Costa Rica. The cover image of this issue depicts a male *Dactyloa insignis*, which Víctor photographed at Sector Pocosol del Bosque Eterno de los Niños, Provincia de Alajuela, Costa Rica.
